

**For the attention of the Librarian &/or
Head of Business Studies**

Biz/ed premier provides access to hundreds of curriculum mapped topics and identifies relevant chapters from a selection of the most respected and widely adopted textbooks in Business and Economics today

Students can also find a series of engaging activities, research articles and other materials aimed at developing critical appraisal skills.

Through school access, students will gain access to a richer learning base than if using a single print textbook - this will help develop their knowledge and understanding of Business & Economics. Everyone will be on the same page, as Biz/ed premier only carries the most recent editions of a text. Biz/ed premier offers a single source for your students' Business & Economics learning needs.

WHAT'S IN BIZ/ED PREMIER?

- ? 250 critical viewpoints, matched to specific chapter/topic content and based upon specially selected articles from popular business and economics journals and activities developed by Biz/ed's editorial team. A further 250 will be added over the course of the year.
- ? 25 leading textbooks in business and economics – see overleaf for full list of available eBooks

Gives introductory coverage of specialised subjects such as Health and Safety Law, Intellectual Property, Property Law, Trusts, Bankruptcy, Meetings. Updated for developments in case law, statutes and Regulations over the last four years</p>
<p>Business Research Projects 4e - A. D. Jankowicz, Luton Business School - ISBN-13: 9781844800827 - Ideal for all students engaged in business research projects, dissertations. Covers all key topics on research methods & project management. Approach is of practical relevance & pragmatism supported by theory</p>
<p>Consumer Behaviour 1e - Ray Wright, Ashcroft International Business School - ISBN-13: 9781844801381 - Takes readers through key concepts, theories of Consumer Behaviour in a lively manner. Ideal for those studying the subject within marketing or business degrees & diplomas, MBA's, postgraduate marketing degrees, and professional courses. Explicit linkage between CB & Marketing Research. Focus on the Internet and electronic marketing throughout the book</p>
<p>Corporate Finance 7e - Theory and Practice - Steve Lumby, Director, Financial Training; Chris Jones, Sheffield Hallam University - ISBN-13: 9781861529268 - Established bestseller by well-known authors and highly successful experienced teachers. Wide coverage of financial management topics suitable for most mainstream courses in the subject. Rigorous exposition of finance theory and practice. Pedagogically strong text, illustrated with numerous worked examples, and pitched at the right level for a rigorous course in finance</p>
<p>Cost And Management Accounting 6e - Colin Drury, University of Huddersfield - ISBN-13: 9781844803491 - Renowned author. Comprehensive coverage of the needs of first-level cost and management accounting courses. Large quantity of question and answer material, mainly taken from the examinations of professional bodies in accounting. Academically rigorous and well-established as a foundation text for students over many years</p>
<p>Developing Work and Study Skills 1e - Linda Lee-Davies, University of Northampton - ISBN-13: 9781844802258 - SWOTPLOT approach introduces students to the concept of self-audit and helps them to identify their skills and to target appropriate areas for development. The only book to integrate study skills and management skills in such a way as to encourage a continuous pattern of self-analysis in the reader. Comprehensive coverage of key business skills and personal development areas including: learning and study skills, written and verbal communication skills, and IT and numeracy skills. Each chapter places skills in an international context using international examples, case studies and cross-cultural tips</p>
<p>Economics 1e - N. Gregory Mankiw, Harvard University; Mark P Taylor, University of Warwick - ISBN-13: 9781844801336 - UK and European version of Harvard professor Greg Mankiw's best-selling and highly regarded US economics text. The classic ten principles of economics - introduced in Chapter One and then reinforced throughout the book - to reinforce your understanding of key economic principles. Predominantly uses UK and European cases studies and press extracts. Clear, relaxed, conversational writing style, specifically aimed at driving the reader to understand the politics and science of economic theories</p>
<p>Human Resource Management in a Business Context 3e - Alan Price, HRM Guide Network - ISBN-13: 9781844805488 - Comprehensive introductory textbook addressing the needs of business students studying HRM modules on first year courses and beyond. International outlook with extensive real-life material from the UK, US, Canada and Australia throughout. Includes coverage of international HRM, diversity and organizational culture, and highlights HRM 'hot topics' including outsourcing, the aging workforce, and the psychological contract</p>
<p>International Financial Reporting and Analysis 3e - David Alexander, University of Birmingham; Anne Britton, Leeds Metropolitan University; Ann Jorissen, University of Antwerp, Belgium - ISBN-13: 9781844802012 - Coverage of political processes in harmonization. Coverage of corporate governance issues. Much greater coverage of fair value than prior edition. 3 chapters on treatment of assets, which include IFRS 5 Non-current Assets Held for Sale and Discontinued Operations. Financial Analysis extended to 3 chapters</p>
<p>International Marketing Strategy 4e - Isobel Doole, Sheffield Hallam University; Robin Lowe, Sheffield Hallam University - ISBN-13: 9781844800254 - Market leading International Marketing textbook. Still the first text to cover niche marketing for SMEs, in recognition of the fact that most students will spend their careers in small and medium companies. Includes a great many short and medium-length case studies and vignettes which demonstrate the relevance of the text's narrative to a real world that students will recognize. Extremely well written with a clarity that is rare in UK textbooks</p>
<p>Introduction to I.T. Skills and Microsoft Office - XP Edition - Steve Rickaby - ISBN-13: 9781844808366 - Perfect book to help gain a thorough introduction to IT skills and the whole Microsoft Office package (XP version). 30 self-contained steps with time-based prompts to help plan study. Clear, concise and comprehensive coverage. Screenshots show exactly what will appear on the computer screen</p>
